Jiffy Packer® Systems

Jiffy Packer® On-Line System

From Picking to Shipping

- 1 Picked Orders – Queuing Area
- 2 Quality Control/ Order Verification
- 3 Jiffy Packer® System
- 4 Case Sealer
- 5 UPS Manifest

Quickly Converts Rolls of Multi-Ply Void Kraft™ Recycled Paper Into Thickly Embossed, Flexible Paper Packaging Material... On-Site, On-Line, On-Demand:

- **Significantly Reduced Labor Costs** – One person can handle 1,000 or more cartons per day, eliminating the need for multiple packing stations.
- **Maximum Productivity** – The touch of a footswitch dispenses a cubic foot of void fill in seconds – faster than any other machine.
- **User-Friendly** – Over-the-line, foot controlled feed leaves both hands free to pack and allows operator to easily keep up with product flow.
- **Compact Design** – Requires a minimum of space and fits easily into most existing lines.
- **Simple, Tool-Less Design** – Easy to service; minimizes costly downtime.
- **Batch Control** – Simply select a sheet size and the machine will continuously feed that amount of material.
- **Automatic Next Sheet Feed** – For greater efficiency, the machine automatically feeds a new sheet as soon as the last one is used.

Unique Cart System Makes Material Handling Easy:

- Transporting and loading Void Kraft™ rolls onto system is quick and effortless.
- No operator lifting required.
- Cart handles two Void Kraft™ paper rolls at once (an amount equivalent to up to forty, 14 cu. ft. bags of loose fill) eliminating the need for frequent material changeovers.
- Cart docks with Jiffy Packer® On-Line System and doubles as unwind stand.

Compact Void Kraft™ Rolls Save Valuable Warehouse Space:

- One eight roll pallet for the on-line system yields the equivalent of up to 160, 14 cu. ft. bags of loose fill yet takes up only 16 sq. ft. of warehouse space.
- Simplifies inventory control by reducing scheduling and re-ordering.

One roll of Void Kraft™ paper for the on-line system is the equivalent of up to twenty 14 cubic foot bags of loose fill.

Jiffy Packer® Benchside and Benchtop Work Station Systems

Jiffy Packer® Benchside

This is a floor model mounted on casters which offers the versatility to position it around or in between pack tables or even on a central packaging line where space will not accommodate the cart system.

- **“Big Company” Through-Put** – Both models provide small to medium-sized companies with the same high-volume through-put capacity as the Jiffy Packer® On-Line System.
- **Pack Area Versatility** – Both models can be loaded from the front or back depending on pack line constraints and even be loaded on both brackets for added efficiency.
- **Storage Space Savings** – One twenty-roll pallet of Void Kraft™ paper for both models yields the equivalent of 100, 14 cu. ft. bags of loose fill yet takes up only 16 sq. ft. of valuable warehouse space.

Jiffy Packer® Benchtop

This model is designed to sit on top of the packing table and dispense material into the carton.

One roll of Void Kraft™ paper for work station systems is equivalent to five 14 cubic foot bags of loose fill.

Jiffy Packer® Paper Packaging Systems

Void Kraft™ Recycled Paper Protects Your Products, Your Profits and Your Environment:

- **Environmentally Responsive** – Made from 100% recycled paper fibers. Can be readily reused or recycled right along with corrugated cartons.
- **Highly Efficient** – Provides excellent void fill protection without the need to fill entire carton. Can also be used to cushion, wrap, interleave or line cartons.
- **Neat, Professional Packaging** – No mess or clean-up required. Improves customer satisfaction.
- **Easy Material Handling** – Compact Void Kraft™ paper rolls can be easily moved to multiple packing stations and are even easier to thread into machine.

SPECIFICATIONS:

JIFFY PACKER® ON-LINE SYSTEM

Size: 39" x 33" x 65" (48" x 54" x 65" with cart attached)

Weight: 235 lbs.

Utilities: 110 Volt AC

Production rate: 3 ft./sec.

Paper Roll Width: 21"

JIFFY PACKER® CART

Size: 48" x 21" x 55"

Weight: 240 lbs. or 560 lbs. loaded

Capacity: 10,500 sq. ft. of paper or 616 cu. ft. of paper

VOID KRAFT™ RECYCLED PAPER

Material: multi-ply 100% recycled paper*

Roll Size: 21" x 3000' (5250 sq. ft)

Roll Weight: 160 lbs.

Diameter: 20 1/4"

Rolls-Per-Pallet: 8 rolls

Pallet Weight: 1360 lbs.

* Post-Industrial

SPECIFICATIONS:

JIFFY PACKER® BENCHTOP SYSTEM

Size: 39" x 25" x 30"

Weight: 185 lbs.

Utilities: 110 V AC

Paper Roll Width: 21"

JIFFY PACKER® BENCHSIDE SYSTEM

Size: 39" x 33" x 65"

Weight: 235 lbs.

Utilities: 110 V AC

Paper Roll Width: 21"

VOID KRAFT™ RECYCLED PAPER

Material: multi-ply 100% recycled paper*

Roll Size: 21" x 800' (1400 sq. ft)

Roll Weight: 42 lbs.

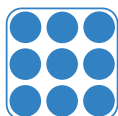

Diameter: 10 3/4"

Rolls-Per-Pallet: 20

Pallet Weight: 935 lbs.

* Post-Industrial
